MCCMH Presents:

Part of the Integrated Care 2020 Training Series

Friday, 1/29/2021
9:00-10:00 OR
1:00-2:00

ASTHMA, ALLERGIES AND COPD

This training is offered virtually, meeting information will be sent prior to training date

REGISTRATION REQUIRED

Email:
TrainingOffice@mccmh.net

This training session offers attendees a chance to learn about asthma and COPD issues as well as allergies, and how all these issues affect the airway. It provides education for the risk factors, symptoms and current treatment trends of airway illnesses. Providers of all disciplines can learn how to use this information to write integrated health goals for Individual Plans of Service, by creating S.M.A.R.T. Outcomes and planning appropriate interventions.

Trainer Biography: Jeffrey Clark RN, ADN, is a Training Assistant in the Macomb County Community Mental Health's Training Department. His current role is in the education of direct and contract staff to meet state guidelines, agency policy and encourage positive individualized outcomes using evidence-based approaches. He has nearly fifteen years of experience as a registered nurse in the state of Michigan. Jeff has worked in both inpatient and outpatient mental health care, with previous experience in emergency and cardiac care hospital settings. He has developed numerous trainings for integrating health in the Community Mental Health setting and currently sits in the Integrated Care Work Group meetings for MCCMH.
