February 19th
12:00pm-
1:45pm**

*This training is offered
virtually, meeting
information will be
sent prior to training date.*

**To Register, email:
TrainingOffice@
mccmh.net**

OBJECTIVES:

- Increase awareness for MCCMH staff on current treatment trends for individuals diagnosed with a seizure disorder.
- Understand the different types of seizures and how these differences may change an individual's IPOS.
- Increase staff's ability to create SMART objectives and specific interventions within the Individualized Plan of Service focused on Integrated Care for Individuals with a seizure diagnosis.

Trainer Biography: Jeffrey Clark RN, ADN, is a Training Assistant in the Macomb County Community Mental Health's Training Department. His current role is in the education of direct and contract staff to meet state guidelines, agency policy and encourage positive individualized outcomes using evidence-based approaches. He has nearly fifteen years of experience as a registered nurse in the state of Michigan. Jeff has worked in both inpatient and outpatient mental health care, with previous experience in emergency and cardiac care hospital settings. He has developed numerous trainings for integrating health in the Community Mental Health setting and currently sits in the Integrated Care Work Group meetings for MCCMH.
