

Person Centered Planning for Nurses

Person Centered Planning for Nurses is similar to Clinical PCP training, but is more specific to nursing.

Objectives:

- ◆ Participants will be able to identify the underlying values & principles of the PCP process .
- ◆ Participants will be able to create SMART goals, objectives & interventions.
- ◆ RNs will become empowered to help guide Person Centered Plans towards Medical Goals.
- ◆ Participants will be able to identify key features of the recovery model.

Training will be offered virtually

2/1/21 9am-12 pm

4/30/21 9am-12 pm

7/30/21 9am-12 pm

10/28/21 1pm-4 pm

Trainer Biography: Jeffrey Clark RN, ADN, is a Training Assistant in the Macomb County Community Mental Health's Training Department. His current role is in the education of direct and contract staff to meet state guidelines, agency policy and encourage positive individualized outcomes using evidence-based approaches. He has nearly fifteen years of experience as a registered nurse in the state of Michigan. Jeff has worked in both inpatient and outpatient mental health care, with previous experience in emergency and cardiac care hospital settings. He has developed numerous trainings for integrating health in the Community Mental Health setting and currently sits in the Integrated Care Work Group meetings for MCCMH.
