

OPIOID HEALTH HOMES

Macomb County Medicaid and Healthy Michigan Plan eligible individuals diagnosed with Opioid Use Disorder who are seeking and/or receiving Medication Assisted Treatment through a MCOSA funded Opioid Treatment Provider or contracted Office Based Opioid Treatment Provider may be eligible for enrollment in the Opioid Health Home (OHH) through Macomb County Office of Substance Abuse.

Under Section 2703 of the Patient Protection and Affordable Care Act of 2010 (ACA), the Health Home service model is meant to help chronically ill Medicaid and Healthy Michigan Plan individuals manage their conditions through an intensive level of care management and coordination. The Opioid Health Home is centered on whole-person, team-based care, with peer recovery coaches at the center of care.

Providers contracted for OHH services must follow the rules and regulations outlined in the Medicaid Provider Manual, OHH Handbook and the MCOSA Provider Manual. Eligible OHH Providers must meet all applicable state and federal licensing requirements. Providers must also be pre-approved and maintain approval as an OHH by MDHHS and have documentation of the approved MDHHS Health Home Partner Application on file with MCOSA. Providers receiving funding from the state-administered funds set aside for OHH must provide or arrange for all of the following services:

1. The Opioid Health Home program's six (6) Core Services will be delivered to Medicaid/HMP individuals with an opioid use disorder diagnosis: Comprehensive Care Management, Care Coordination and Health Promotion, Comprehensive Transitional Care, Patient and Family Support, Referral to Community and Social Support Services, Use of Health Information Technology;
2. The OHH will function as the central point of contact for directing patient-centered care across the broader health care system;
3. An interdisciplinary team of providers will work with individuals to develop a person-centered/individualized plan of service health action plan to best manage their care;
4. The OHH will elevate the role and importance of Peer Recovery Coaches and Community Health Workers to foster direct empathy and raise overall health and wellness; and
5. A qualifying service must be provided, documented and billed for by the OHH in order to receive the monthly reimbursement for that individual;
6. Eligible Medicaid/HMP individuals will be automatically enrolled in the Opioid Health Home by MCOSA staff and have the option to opt out at any time. These individuals will be required to provide consent to participate in the OHH prior to the agency receiving reimbursement for OHH premiums.

MACOMB COUNTY COMMUNITY MENTAL HEALTH OFFICE OF SUBSTANCE ABUSE

Opioid Health Home Providers will fulfill and maintain the minimum staffing qualifications and ratios as outlined in the OHH Handbook.

To be eligible for Opioid Health Home enrollment and covered services, all the following must be met:

- Eligible individuals must have full Medicaid, Healthy Michigan Plan, or MIChild coverage at the time of service. Individuals enrolled in other waiver services, are dual enrolled in Medicare and Medicaid or have Medicaid deductible/spend-down (whether or not met) are ineligible.
- The individual's Medicaid, Healthy Michigan Plan or MIChild coverage must reflect Macomb County Community Mental Health as the PIHP.
- Eligible individuals must have a diagnosis of opioid use disorder.
- Individual must agree to participate in the Opioid Health Home program. Participation is voluntary and enrolled individuals may opt-out at any time.
- Individual must give consent/sign a release to share information between the OHH Provider and MCCMH/MCOSA.

Current Michigan Medicaid Opioid Health Home information can be found on the MDHHS website page "Opioid Health Home", <http://www.mi.gov/ohh>
