

Dealing with Substance Use Challenges? **YOU ARE NOT ALONE**

When someone's use of alcohol or drugs impairs them, creating health problems, disabilities, and failure to meet responsibilities at work, school, or home, they suffer from Substance Use Disorder (SUD).

This disorder affects people from all walks of life and age groups.

SUD is common, is often serious—but is treatable, and many people do recover.

MCCMH can help. Our substance use services focus on prevention, treatment and recovery.

Call today; our team is ready to help.

MCCMH centers are barrier free, offer TTY access, American Sign Language communication, and other language translations. MCCMH is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF), and operates under the direction of the Macomb County Board of Commissioners and the Macomb County Community Mental Health Board.
