Director's Verification of Staff Credential's Instructions

Credentials

The Director's Verification of Staff Credentials form is utilized to provide summary information that indicates the applicant meets the requirements of the MCCMH-SUD Department Staff Credentialing Policy (see SUD-Provider Contract). The Program is required to obtain direct source verification for all credentialing verification and make documentation available to the SUD Department as requested.

The Director's Verification Form is a tool used by the SUD Department for consideration of adding the staff person to the SUD panel for funding reimbursement as the documentation submitted is an indication that the applicant's licensure and credentials are in good standing and the individual is working within their scope of practice, as applicable.

The Director's Verification of Staff Credentials Form must be forwarded and authorized by the SUD Department prior to the provision of direct service, unless other provisions are approved by the SUD Department.
