[Solution Focused
Brief Therapy 2024](#)

Solution Focused Brief Therapy and Practices

Presented By: Angela Curtis, MA

This training covers the history of SFBT, concepts, process, goals and how to utilize the PCP, application, group therapy, substance abuse, tools and application for children and adolescents.

Training Objectives:

- To assist Therapists, Case Managers and Support Coordinators in utilizing time with consumers effectively.
- To reduce the number of visits an individual has in order to stabilize and achieve their treatment goals.
- To reduce the time it takes to transition consumers into the community to their own primary care physician and/or private
