SPECIAL CONSIDERATIONS:

- CPR and First Aid Certification must include an in person skills demonstration in front of certified trainer. Examples of entities that fulfill this requirement within their established fidelity are American Heart Association, American Red Cross, EMS Safety, American CPR Training and American Safety & Health Institute. Blended training options that incorporate online content training along with in person skills demonstration in front of a certified trainer for certification will be accepted. Any training option that does not include in person skills demonstrations will not be accepted. Contracted providers are required to ensure that their employees meet the provider qualifications outlined within the Michigan Medicaid Manual, site/professional licensing requirements, and the accreditation standards outlined by the provider's accrediting body.
- Direct Support Professional Reciprocity only applies to initial trainings completed through OCHN, TTI, and Community Living Services. All other Direct Support Professional trainings must have been vetted and approved by the State Training Guidelines Work Group.
- A Direct Support Professional cannot be counted towards the staff to consumer ratio unless they have successfully completed the full Specialized Residential Service training, including the In-Person MAR and Medication Demonstartion.

- A Direct Support Professional whom is not up to date on their Specialized Residential Service provider training requirements cannot be counted towards the staff to consumer ratio.
- Direct Support Professionals that have not been working within a Specialized Residential program for the duration of 1 year or greater will be required to complete the initial Specialized Residential Service provider training program.
- Skill Building and Day Program staff that will be administering medications to individuals within these programs must complete the Health and Medication
