

MACOMB COUNTY COMMUNITY MENTAL HEALTH Substance Use Engagement Center

A service for individuals experiencing a crisis caused by substance use

WHAT IS THE ENGAGEMENT CENTER?

An Engagement Center is a short-term intervention facility that offers a supervised, supportive environment for individuals experiencing a crisis due to drug or alcohol use.

Individuals are provided with a safe place to stay for a few hours or a day in a clean, welcoming environment.

Individuals can stabilize, have a meal, take a shower, and talk to caring staff. Services are provided by Peer Recovery Coaches and other trained staff.

Individuals receive information and assistance in obtaining treatment services, referrals, and links to other recovery resources, including housing and medical services.
