

SEEKING SAFETY

A Treatment Engagement Model used with
Trauma and Substance Use

Presented by Agnes Ward, PhD, LP, CAADC, BCBA, LBA

The goal of this course is to learn *Seeking Safety*, an engagement model used for those with trauma and/or substance use difficulties. Background on trauma and substance abuse will be covered as well as implementation of *Seeking Safety*. By the end of the training, participants will be able to implement *Seeking Safety* in their setting and facilitators will be able to apply the key principles to their work the individuals they serve.

Course Objectives:

1. To review research and clinical issues in treating trauma and substance abuse;
2. To increase empathy and understanding of trauma and substance abuse;
3. To describe *Seeking Safety*, an evidence-based model for trauma and/or substance abuse.
