AGING in AMERICA

APPROVED for
3 SW CE hours
2 CDTS hours

This training provides guidance for case managers and therapists in navigating the PCP process. It brings insight to recognizing when our elders need specialized care and how to properly refer and link to programs and specialists that can provide the needed services. This training includes ways for children and adolescents to interact and share knowledge and companionship that can be worked into their PCPs

- Define age by generation and identify signs of aging.
- Define ageism and learn how to recognize it in various settings.
- Describe various integrated health issues that affect the older population.
- Identify ways to assist elders through life transitions including appropriate coping skills or referrals to include in the IPOS. Describe interventions and evidence-based practices to incorporate in an integrated person-centered plan.
- Discuss how a natural support system, especially children and youth, can improve quality of life for the elderly.

When:

9:00am-12:00pm

Choose from ONE of the 2026 dates below:

January 6th
February 3rd
